

Butoh Workshop Rhine Harbor Basel 3 - 8 July 2023

The public space

The public space as a starting point and source of inspiration for the elaboration of a performance. Places have certain meanings and functions. These should inspire us to develop our own performance in terms of content and art. With specific exercises we will expand our field of perception and thus develop an antenna awareness for our surroundings as well as for ourselves. Practices and methods will be introduced that help us to deal with psychological as well as physical limits.

Prerequisite for participation is an openness to new experiences of space and body. Interest in Japanese Butoh dance.
